

## BOLSHEVICK AGITATOR TO STAND TRIAL

**Bumovitch Must Appear Before Parliament**

### REDS INCENSED

**Jacques Senecal Is Elected New Senator**

Final preparations have been made by the Government to bring to trial tonight at the Bar of the House, Ivan Bumovitch, Leader of the Communist Party, whose dramatic arrest in the Arts Building caused such a furore on Tuesday morning.

In defiance of the Governments' uncompromising attitude toward all radicals, the Communist leader launched a manifesto in which he charged members of the Government with bootlegging, corruption and also with knowing more about the murder of the late lamented Aunt Kurrie, than they are willing to say. Bumovitch, who has been incarcerated on bread and water since his arrest, will be cited before the House to-night, and he will be asked to give the names of the members whom he has attacked.

The Government intends to introduce a bill providing drastic punishment for the Communist leader.

The debate on this bill promises to be an exciting one. The accused has retained counsel of talent, who will try to secure an acquittal. Feeling runs high among the radical element since the arrest of their leader, and threats of dire revenge are freely made in Red circles. A fund to provide the best legal talent is being raised. Several efforts have been made to obtain the prisoner's release on bail, but the Government steadfastly refuses to liberate Bumovitch. What punishment is in store for the Red leader is a state secret, but several ministers have whispered that, if the Government has its way, Bumovitch will be silenced for good.

When asked to make a statement with regard to the newly formed Conservative Party, the Prime Minister stated last night that all their arguments were answered in his statement yesterday, when he told of the drastic action taken by the Cabinet against the spread of Communistic or Socialistic agitation.

The Premier also stated that an emergency meeting of the Cabinet was held last night to fill a vacancy in the Senate, which was unfortunately overlooked on Tuesday. After long debate, it was decided to make Jacques Senecal the new senator, thus fulfilling Mr. Senecal's life-long ambition.

W. H. "Windy" Biggar will act as Speaker. The Clerk will be F. O. Peterson, and the Sergeant-at-Arms will be George Grimpsom.

## ARTS UNDERGRADS PROPOSE AMEND'T

**Separation of Arts and Commerce Seems Inevitable**

The McGill School of Commerce has been expanding rapidly within the last few years and its growth has been accompanied by a certain amount of dissatisfaction on the part of Commerce students at having to exist under the limitations and jurisdiction of the Arts Undergraduate Society. Commerce has been struggling for a long time to become separated from Arts and to form a wholly self-governing society. The conflict has reached a stage where a separation would be equally welcomed by the adherents of both factions. With this end in view a proposed amendment to the constitution of the Arts Undergraduate Society has been drawn up. A meeting will be held on February 7 to discuss the advisability and the adequacy of the amendment.

The proposed amendment is as follows:

A.—All male students—undergraduates, conditioned undergraduates or partial students in the Faculty of Arts who have paid their membership fee shall be active members of the Society with the right of franchise in all matters that come before the Society, except:

1.—Undergraduates and conditioned undergraduates registered in the School of Commerce.

2.—Partial students taking the majority of their courses in Commerce.

3.—Partial students taking an equal number of courses in Arts and Commerce, who have stated their preference to be considered as Commerce students.

B.—All graduates of the Faculty of Arts, except graduates of the School of Commerce, shall be honorary members of the Society.

## HABITS OF DRUG FIEND DENOUNCED

**Prof. Moore Gave Address in Medical Building**

### PHARMACEUTICAL SOC.

**Audience Heard Statistics and Opinion of Lecturer**

Last night, in the New Medical Building, an audience of over a hundred listened with rapt attention to the lecture by Prof. A. Moore on "Dope and its Curses," a subject on which the speaker was well informed. He traced the manufacture of the different drugs, of which he had brought samples, and also gave statistics on different aspects of the situation; he showed some of the faults in the taking of statistics, and right through his address he was inclined to minimize the danger which has been somewhat exaggerated.

Prof. Moore is head of the Department of Pharmacy, and was introduced by D. Jassby, President of the Pharmaceutical Society, and chairman of the evening. He stated that he had given this lecture first before the Kiwanis Club about three years ago, and had made certain prophecies to them, of which they did not at the time realize the truth.

Dope, in the true medical sense of the word, means anything that has a stimulating or stupefying effect on the system—sometimes both—and is a habit-forming drug. The primary drugs are opium and coca (not cocoa) and from these practically all the compounds and mixtures are formed. The speaker went on to discuss prohibition at some length, stating the many loopholes that existed in the present system, and the difference of opinion on the subject. "Prohibition," he said, "is an advantage when it is prohibition. Does any one in this room think the U.S.A. is an arid desert? There is more alcoholic liquor in N.Y. State than in the whole of Canada."

The Professor mentioned that, in his position he has authority to have dope in his possession at any time, and that was the reason for the exhibit on the table before him. Opium comes from a white poppy; when half-ripe the juice is exuded and scraped off, and then rolled into balls; following this it is packed with leaves for export from Turkey in Asia, Persia and China. It contains about twenty-four alkaloids. Morphine is a blessing to the Medical world, as it would be in a sorry position without it. The opium product as brought into this country is 6 to 14 per cent anhydrous opium. Smoking opium may be obtained from any of the above by heating and thus making it more concentrated, and therefore it is what might be called an extract; it is a brownish-black sticky liquid about 10.6 per cent anhydrous opium. Cocaine is useful as a sedative, while morphine is hypnotic and soothing.

Most of the smoking opium is supposed by the average person to be made in China, but this is a misrepresentation for it is not. It is manufactured elsewhere and labeled "made in Hong Kong" (or some other place in China). In fact, it is made in Vancouver in large quantities. Opium is a very old drug, as it has been found in excavating in Egypt.

Any narcotic habit can be formed in a week, and for this reason it is dangerous to take a narcotic even once. Cocaine was originally brought out to overcome the morphine habit, and its curse was only discovered after it was used. A Chinaman takes 10 or 15 minutes to prepare a pill of opium, about one minute to inhale, and he is off for about three hours of bliss. The stem of his pipe is about one and one-quarter inches in diameter, hollow, and made of wood; there is a large bowl of stone—hollow, but with a receptacle for the pill about the size of a pea. Some of the smoking opium is taken on the end of a wire and held in a flame to burn out disagreeable alkaloids. Then it is placed in the bowl, and three to four inhalations are enough.

Hashish is the curse of Hindustan; it is an extract of Indian Hemp, and is eaten. It is one of the most useful of narcotics when properly administered in aromatics and cubebs. It has most extraordinary effects—intoxicating, relieves pain—for if one chews a little the effect lasts for about 15 minutes, and causes one to think that he has been asleep for a week. It does cause loss of weight.

The German are supplying cocaine and morphine to the underworld in London, Montreal and other large cities, after it is smuggled in. It costs 1000 marks an ounce, and is sold for \$25, but is worth \$250 in the underworld. A dope ring is more powerful and more wealthy than (Continued on Page 2.)

## WHAT'S ON

### TO-DAY.

1.00—Union House Committee Meeting in Council Rooms.  
3.00—Arts '25 Hockey practice, Campus Rink.  
5.00—Fencing practice in Union.  
5.00—Musical Association in Union.  
5.00—Graduating Classes Committee in Union.  
5.15—Band practice in Union.  
5.15—Football Lecture in Union.  
6.00—Commerce '25 basketball in Molson Hall.  
7.00—Commerce basketball in Molson Hall.  
7.00—R.V.C. vs. Y.W.C.A., hockey.  
7.00—Delta Sigma Junior-Senior debate.  
7.00—History Lecture—Extension Course.

### COMING.

February 2—  
Wrestling practice.  
U. of T. vs. McGill, hockey.  
Pink Issue of the "Daily."  
Basketball: 2nd Comm. vs 2nd Arts.  
Ski Dash on Stadium.  
Snowshoe dash on Stadium.  
Chess Club at Union.  
February 3rd—  
R.V.C. Hockey: Seniors vs. Sophs; Juniors vs. Freshettes.  
Basketball: Seniors at Kingston.  
Ski Cross Country Run.  
Snowshoe Cross Country Run.  
February 4th—  
Maccabean Circle at Windsor Hotel.  
February 5th—  
Philosophical Society in Strathcona Hall.  
Students' Society meeting at Union.  
Basketball: 1st Year Science vs Dents.  
Hockey: Seniors vs. Freshettes.  
February 6th—  
McGill Rifle Association Dinner.  
Hockey: Juniors vs. Sophs.  
February 7th—  
Arts Undergrad. Society.  
February 8th—  
"Diminutive Dramas," Alumnae Association.  
February 9th—  
Union House Dance.  
February 10th—  
Medical Dinner.  
February 11th—  
Maccabean Dinner at Ventians.

## HOCKEY TEAM READY FOR VARSITY SIX

**McGill Sextette Shows Some Improvement**

### TEAM CONFIDENT

**Expect to Give Varsity Hardest Game of Season**

With each day's practice the McGill puck-chasers feel more and more confident of their ability to stave off the Blue and White attack when the Varsity sextette invades Montreal on Friday night. The players, individually and as a team, have shown a marked improvement in their play during the last five days, and the contest with the Toronto aggregation promises to be one of the best of the season.

Coach Shaughnessy has devoted a great deal of time in his daily workouts to shooting practice. Poor marksmanship has been the greatest weakness of the team since the beginning of the season, and this was never more apparent than in the two contests with Queens.

The first string wings, Flanagan, Morrison and McNaughton are showing more ability in finding the net. McNaughton has shown more improvement than any man on the squad. In every game since the return of the team from the Christmas tour "Mac," by his deadly shots, has caused opponent goal tenders no end of distress. In the first Queen's contest he tallied two of his team's three goals, while in the return game at Kingston he was the only McGill man able to get the puck past Quinn. He back-checks well and is a hard fighter.

The return of Jack Lynch to the squad gives the team another experienced forward. Without reliable substitutes the three wings were called upon to bear too heavy a burden, and frequently gave way under the strain. An example of this was the Queen's game at the Mount Royal Arena earlier in the season. During the first two periods the McGill team managed to hold the upper hand but towards the latter part of the contest and in the extra period the Red and White skaters were physically no match for their opponents, who by continued use of spares managed to keep their men fresh.

(Continued on Page 2.)

## POPULATION AND FUTURE IMMIGRATION

**Historical Club Meets in the Hall**

### DR. FRYER PRESENT

**Shall Canada Pull Down Immigration Barriers?**

"Legislation may keep Europeans away, but only prosperity can keep Canadians in Canada." This extract from a paper read at the meeting of the Historical Club last night by Van Vliet, of Arts '23, bearing on the question of immigration, was the keynote of the paper. R. Harris read a second paper prepared by N. Egerston, on Canadian population.

As pointed out by Van Vliet, "people are always looking for a land flowing with milk and honey." This is the idea of a good many foreigners have formed of Canada and it has been reported that transportation companies and immigration officials have influenced them in over-estimating the good qualities of the Dominion. Religious strife and political difficulties in their native land have been two important factors in influencing people to immigrate into Canada.

Up to the present it has been Canada's policy to discourage immigration. The characteristics that have placed the prospective immigrant among the list of undesirable are numerous. Considering the heavy debt of Canada, that there is a mile of railway for every four hundred people, and that there is a square mile of arable land for every eight people, it seems evident that any means taken to encourage foreigners to migrate to Canada that they might share the burdens of the Dominion, and at the same time help to develop her natural resources to their own benefit, would be welcomed by Canadian people.

Van Vliet said, "We are overstocked with magazine agents and peddlers; what we want is farm laborers and domestic workers." He thought that not enough attention is being paid to the farming element of the population. The farmer, more than anybody, is affected by low prices for products and high prices for necessities. Consequently, a man who is a prosperous farmer in Great Britain will not come to Canada because his prospects at home seem to him much brighter than they could be in Canada. Within ten years seven hundred thousand people have gone from Canada to the United States, a good percentage of these from the prairie provinces. The only logical reason for this serious exodus of Canadian citizens to the States is that higher wages and greater opportunities are offered there. Under existing conditions in most districts on the prairies, it is with great difficulty that the farmer is able to get a bare living from his labors. Considering this it is not very attractive to immigrants.

As pointed out, if the barriers against immigration were taken down, an influx of prospective citizens from southern and central Europe would probably result.

In Egerston's paper was traced the growth of population in Canada from the time of the first settlement in Acadia up to the present, when the last census set the figure at 8,788,483. Of this number Ontario and Quebec together claim three and a half million. There are 17,475 Japanese citizens in Canada, nearly all in B.C. They are rapidly increasing by birth in the Dominion, not by immigration from Japan. Fifty-four of them died under the British flag in the late war. There are also fourteen hundred Hindoos in Canada who, like the Japanese, have shown themselves to be good citizens, and who are keen to gain equal rights with the white people. It was stated that 400 million acres of land in Canada are not being cultivated. Approximately 98 million acres are under cultivation.

There followed the reading of the papers an exchange of views on the present Canadian immigration policy and the one that should be adopted in the future.

Dr. Fryer helped along the discussion.

## LAST OPPORTUNITY TO SECURE TICKETS

Students are advised that today will be the last opportunity to secure tickets at the Union for the McGill-Varsity game on Friday night. All tickets have to be returned to the Mount Royal Arena on Friday morning, so this is absolutely the last chance to secure them with convenience.

The tickets are selling at a good rate, and keen enthusiasm is being shown for the coming struggle.

Rooters' tickets will go on sale Friday morning at 11 a.m. for 55c.

## BOXER AND WRESTLER TO MEET IN BOUT

**University Eliminations Will Be Held in Union**

### SATURDAY NEXT

**Novel Exhibition to Settle Much Mooted Question**

"Friends Romans and Countrymen, lend me your ears, I have come to bury Caesar—" and get my small block M.

Such words apply in no small measure to the boxing and wrestling eliminations which will commence next Saturday evening at the Union. These bouts should provide a very interesting programme, together with the other items which will be included. One of the events will be a complete novelty, when a boxer and a wrestler try to gain supremacy in a contest which will be governed by varied rules. These rules and further particulars have been supplied by the B. W. and P. scribe.

Jack Dempsey, heavyweight champion, challenger and tiger of the ring, and Strangler Lewis, tracheal artist of the mat, in a proposed tussle for supremacy boxer over wrestler, have started disputation; yea, verily. Such unhealthy appetite has reached even unto the gray, cold, damp but lordly halls of learning of Ye Olde McGill.

Saturday night, February 3rd, with the McGill Union as the ramping grounds. Boxer will meet wrestler in order that discussion may cease. There will be gnashing of eyebrows.

The bout will be Montgomery wrestler, vs. Brewer, boxer, 145 lbs.

The rules of the competition will be:

1.—Boxer permitted to hit while on his feet.  
2.—Wrestler not permitted to hit at all.  
3.—Boxer scoring knockout will win.  
4.—Wrestler scoring fall, men come to their feet and commence again after one minute's rest.  
5.—Boxer scoring knockdown of five seconds' duration gives a minute rest.  
6.—Boxer will be declared winner after scoring two knockdowns.  
7.—Wrestler will be declared winner after winning three falls.

8.—Intercollegiate Boxing and Wrestling rules will govern the bout, with exception of the boxer, who will be permitted to hit in clinches, but not while on the floor. Kidney punch is barred. Elimination bouts in boxing and wrestling will also take place Saturday night.

All boxers and wrestlers are advised and urged to enter their names before Friday noon. Entry list is posted in Molson Hall.

The University championship finals will be held Monday night at the Union and winners of the small block M decided.

Great preparations and special attractions are under way.

Interfaculty championship certificates are completed and will be distributed immediately.

## SENIOR QUINTETTE TRAINS FOR TRIP

**Basketball Squad Well Set for Battle in Kingston**

Tonight at six the senior basketball squad will turn out for a final practice in the High School gymnasium before the trip to Kingston. The entire squad is in good physical shape and tonight the few last details of the system of play that is to be used against the tri-colored team will be developed. The team will leave on Saturday morning for Kingston, the same men making the trip as have been playing on the Senior squad throughout the season.

On Tuesday night a hard practice was held in which the faults of the recent game were pointed out and efforts made to remedy them. In order to get into a play-off the team must win every game that is yet to be played in the Intercollegiate League. This too is the attitude taken at Kingston so that the game in all probability will be fast and hard.

The defensive department of the team was not as weak on Saturday as was the offensive so that to this last branch much attention has been paid. The Seniors played against the Intermediate A team in order to correct these errors. Some time was devoted to shooting and better results should be obtained.

The following men, it is expected, will take the trip: Crain, Manson, Little, Amaron, Mendelssohn, Turpel, Hillton and Blumenstein. Manager Eddie and Coach Van Wagner will also accompany the squad.

## PLAYER'S NAVY CUT CIGARETTES

## ANOTHER DAILY MEETING SOON

Another meeting of the "Daily" staff, at which all reporters of present and past connections with the paper are expected to attend, is to be held next Tuesday night. As those men who were at the last meeting know, the talk that is to be given will be of a type that could not but be of help to every newspaper man.

The idea of the management of the "Daily" in getting men to speak to the staff is only similar to the system of coaching teams, and it is too evident that the more coaching a team gets, the better it is apt to be able to handle itself in a game.

The Daily has as yet far from attained perfection in the writing of its columns, and the men who spend their time on it can not spend an hour better than this.

## THE "PINK ISSUE"

The co-eds have their fling tomorrow. The "Pink Issue" of the "Daily" will appear at that time. Every article in it will be reported, written and edited by the members of the Royal Victoria College staff of the paper who will, for the evening, be in charge of the office. This will mark the second journalistic effort of the co-eds within the last year, the first issue appearing slightly earlier last year than the present date. The work of the ladies' staff of the "Daily", while necessarily restricted and limited, is invaluable in that it affords publicity to many events of peculiarly feminine interest which would not admit of convenient treatment by the male reporters.

It is a matter of no small difficulty to vary the every-day offerings of a daily journal, such essays in this direction upon the part of the McGill Daily as the "Freshmen's Issue", the "Pink Issue" and the later "Mongrel Daily" are all a seeking after a change; a striving for something which may alter the usual "make-up" and by so doing may permit publication of and give encouragement to the efforts of writers about the University who would be anxious to write for a special edition but might disdain to do so for the ordinary issue. In their efforts as possible stimulants to student writing, as also in their capacity to serve as landmarks in the year, is found the justification of special issues similar to that to be put out tomorrow.

## THE MOCK PARLIAMENT

The second session of the McGill Mock Parliament will convene in the Union this evening. Extensive preparations, much effort and considerable enthusiasm have marked the endeavours of all parties concerned in an attempt to make tonight's meeting in every way the equal of that which has gone before. The last gathering was in every respect a success in the matter of interest created; criticism, however, was contained in this column of the preponderance of the farcical elements in the proceedings to such an extent as to exclude the possibility of thoughtful speech. Happenings of that evening warranted a criticism in that regard. The statement issued by the leader of the Government some few days ago, however, is an assurance that affairs will not take such a pronounced turn towards levity this evening. The students have been promised that there will be humour, certainly; it is essential to the spirit of the Parliament. At the same time there will be ample scope for considered argument upon the part and that this will be introduced in the speeches of the Prime Minister and others assuming an active role upon the floor of the House.

The Mock Parliament constitutes probably the greatest opportunity and at the same time the widest field of activity for the Literary and Debating Society. Every undergraduate is a member of the "Lit." The Mock Parliament demands his support on that account. In addition to this there is the added incentive of participation in debate and the privilege of being present at a very interesting piece of legal parliamentary procedure when the alleged Communist is arraigned before the House.

## EDITORIAL NOTE

The action taken by the Senior Year of the Arts Faculty in endorsing the proposal that an attempt be made to hold a smoker of all the senior years of the University is deserving of a ready reception. It is in the later college sessions that the undergraduates begin to form acquaintances with others outside of their own limited circle and any means of enlarging such an opportunity, or of strengthening the ties thus formed, is worthy of commendation. Also, the advisability of the men of the graduating years becoming acquainted before graduation is a factor that must be borne in mind as further consideration favouring endorsement of the plan.

## ENJOYABLE SMOKER HELD IN THE UNION

Last night in the Union, the class of Arts '23 held a very enjoyable Smoker, although the turn out was not quite as large as was expected.

Several business matters were brought up and discussed, chief of which was the advisability of a further gathering of the class. It was decided that this would be in the form of either a dance or a dinner, and it was resolved that the question should be allowed to stand until the members of the class decided which would be preferable and the best time for such an event.

Another suggestion was put forward that a Senior Smoker be held and invitations be sent to the other senior classes to participate with Arts Seniors in effecting this.

Bert Wells was elected valedictorian. After the business programme was concluded the class gave itself over to amusement and some very fine personal jokes were sprung producing much merriment.

Ralph Collins rendered some excellent singing, being accompanied by Wallace Willard, and the audience was very appreciative of their efforts.

On the whole the smoker was most successful, and everyone who was fortunate enough to be there enjoyed themselves to the fullest extent.

## ANOTHER "DAILY" MEETING SOON

(Continued from Page 1.)  
ening to a man who has learned the newspaper game not from theory, but from actual association with the work. The meeting will commence at 7.30 p.m., and will be held in the editorial office of the paper and it is expected that representatives from the R.V.C. staff will be present. The speaker will be a man well known in the city journalistic field.

## HOCKEY TEAM READY FOR 'VARSITY SIX'

(Continued from Page One)  
Of Flanagan's stick-handling ability and Morrison's speed little need be said, they are well known to all who have followed the team during the season, and should be clearly demonstrated on Friday night.

Varsity is practising hard for the McGill game in an effort to make it four straight wins in the Intercollegiate League, and are looking forward to a hard tussle. Comparative scores would place McGill in a favorable light, the Red and White having experienced less difficulty in defeating the U. of M. than did Toronto, and it took Varsity 22 minutes of overtime play to dispose of Queen's by the margin of a single goal.

The McGill-Queen's games were so closely contested that, on a comparative basis Varsity should be in for a severe tussle.

# NOTICES

## SNOOKER TOURNAMENT.

The draw for the second round of the snooker tournament is as follows:  
W. H. Wilson vs. G. H. Rumpel.  
A. R. Keddy vs. N. Miller.  
H. A. Cohen vs. J. R. Robertson.  
F. L. Fisher vs. A. Levy.  
These matches must all be played before February 6th.

## C. I. R. A. MATCH.

McGill Contingent C.O.T.C., vs. R. M. C. and others. The match will take place in the High School of Montreal, at 2 p.m. Saturday, February 3rd, 1923. For further information apply to the secretary, C.O.T.C., R.A.

## E. G. B. BROCKWELL,

37 Sussex Ave., City.

## RIFLE CLUB.

The dinner to be given by Dr. Birkett for the members of the McGill Rifle Association will be held on Feb. 6th at 7.30, in the Union.

## PHYSICAL SOCIETY.

The Society will hold a meeting on Feb. 2nd, at 4.45 p.m. Major Steele will introduce the question of "Radio Communication and Prevention of Forest Fires."

## PHILOSOPHICAL SOCIETY.

The next meeting of the Society will be held in Strathcona Hall, on Monday, Feb. 5, at 8 p.m. Mr. R. J. Clark, of the Department of Physics, will deliver an address on "Concepts of Matter and Energy." All interested are cordially invited to attend.

## COMPARATIVE RELIGIONS GROUP.

The first regular meeting of this group will take place on Thursday, Feb. 1st, at 5 p.m., at Strathcona Hall, Room B. Subject: "Hinduism" (including "Buddhism"). All those interested are cordially invited to be present.

## MACCABAEAN DANCE.

The Maccabaeon Dance will be held in the Venetian Gardens on Sunday, Feb. 11th.

Tickets may be procured from any member of the executive.

## MACCABAEAN MEETING.

The next meeting of the Maccabaeon Circle will be held in the Oak Room, Windsor Hotel, on Sunday, February 4th at 2.45 p.m.

All interested are cordially invited.

## ARTS UNDERGRADUATE SOCIETY.

Next meeting will be held on Feb. 6th at 8 p.m., in Union Cafeteria.

## CONVOCAION ARRANGEMENTS.

A meeting of all those on the committees of the graduating classes is called for to-day at 5 o'clock at the Union. All men are urgently requested to attend.

## R. V. C.

All those girls who wish to buy rooters tickets for the McGill-Varsity game on Friday, are requested to sign up on the list posted for this purpose, as soon as possible. Those who want to go, and do not sign up, will be unable to secure tickets, as there will be no extra ones on sale.

## R.V.C. vs. Y.W.C.A.

The sixth game in the Montreal Ladies' Amateur Hockey League takes place to-night, at 7.15, on the R.V.C. rink.

This game will be a very close one, and all supporters are earnestly requested to turn out and support the home team. All up, then rooters and do your best.

The line-up for the R.V.C. team will be as follows:—

L. Kerr—Goal.  
C. Robertson—Right Wing.  
F. Stocking—Centre.  
H. Marshall—Left Wing.  
R. Grant—Right Defence.  
E. D. Campbell—Left Defence.  
F. Perry, L. Bingham and E. Hutchison—Subs.

The Musical Association will meet this afternoon in the Union at 5 o'clock.

## MCGILL CONTINGENT, C.O.T.C.

Special Order  
by  
Lieut.-Col. R. R. Thompson, M.C.,  
Officer Commanding.

Lectures.  
There will be lectures as follows this week, in Room 33 of the Engineering Building, both from 5.15 p.m. to 6.15 p.m., and both by Lt.-Col. E. W. Pope, C.M.G.

Thursday, Feb. 1—Military Law. (Especially for "B" candidates, but "A" should attend as well if possible.)  
Friday, Feb. 2—Topography. (For A and B. Candidates.)

Every candidate possible should attend both of these lectures.  
A. J. OLMSTED,  
Lieut. & Adjutant.

COMMERCIAL '25 BASKETBALL.  
Game at 6 p.m. at Molson Hall. Will the following players turn out: Johnson, Giddeman, Punde, Murphy, Kenrick.

UNION HOUSE COMMITTEE MEETING.  
There will be a very important meeting of the Union House Committee at

# GREAT EVENT FOR MEDICAL UNDERGRADS.

## Forty-First Annual Dinner to Be Held Next Week

## AT MOUNT ROYAL

## Speaker Dr. G. W. Crile, of Western Reserve Univ.

The forty-first annual dinner of the Medical Undergraduate Society will be held on Saturday, February the tenth, at six o'clock, in the Mount Royal Hotel. This function, which ever has been the main get-together affair of the scholastic year, will be very well attended judging by the number of tickets which have been sold and by the comment heard.

In keeping with the policy of past years one of the ablest medical teachers on the continent has been invited to attend as guest of honor, and the committee is in receipt of a reply accepting the invitation. The speaker, Dr. George W. Crile, Professor of Surgery in the Western Reserve University, has a world-wide reputation for his work on the Thyroid, Surgical Shock, and his Kinetic Theory. In addition he is described as a most interesting speaker with a large fund of ready wit. As Dr. Crile must perform leave Montreal at eight o'clock on the night of the dinner, the time of the function has had to be set for six o'clock. An attractive menu has been prepared, and the whole staff of the hotel is anxious to make the first major McGill function to be held within its walls a decided success.

The tickets, which have just been put on sale, have been going well, and it is expected that by the end of next week the accommodation of the Mount Royal will be taxed. The representatives of the different years on the dinner committee have asked that all those who wish to purchase tickets should see them immediately, and it is essential that this be done so that an early date it will be known just how many intend to be present. Yesterday afternoon it was announced that every member of the fifth year will be out and it is said that the majority of students in the lower classes also will attend.

The list of speakers for the evening has been completed, and contains the names of those teachers best known for their ability to impress their hearers with the weight of their remarks and at the same time to intersperse their talks with humor of the rarest kind. The speeches will be informal, and with the exception of that of Dr. Crile will hold a secondary place in the function, the main purposes of which are to have teacher and student meet on common ground, and to promote that fellowship which is so essential to the success and enjoyment of student and professional life.

The dinners which this society has held in the past have always been unequalled successes and the first mention of this year's affair was provocative of many enthusiastic remarks. The committee hopes that a large number will be present at this function, and pains are being taken to impress upon the members of the lower years the importance of getting out and meeting their classmates, and those of the higher years, under a different atmosphere than that of the classroom.

There should be no difficulty in securing tickets as each class representative has been given a supply to circulate among the members of his class. In this way the burden has been shared by many and at the same time

1 p.m. to-day in the Council Rooms. Every member must be present.

## STUDENTS' SOCIETY MEETING.

A special meeting of the Students' Society will be held in the McGill Union on Monday, Feb. 5th, at five o'clock.

C. D. FRASER,  
Secretary.

## COMMERCE BASEBALL.

Practice for faculty baseball at 7 o'clock to-night, in Molson Hall.

## CHESS CLUB.

There will be a meeting of the Chess Club on Friday, Feb. 2, at 5.15 p.m., at the Union. All those who signed up for the tournament are specially requested to be present.

## ARTS '25.

The following are asked to be on hand at the Campus Rink from 3 to 4 to-day: Code, P. S. Smith, S. A. Macdonald, Nadler, Gorrie, McGerrigle, C. I. Johnson, Walker.

## WRESTLING PRACTICE.

Friday, Feb. 2nd, at 5 p.m. All up for the last practice before the college finals.

## BAND PRACTICE.

There will be a band practice to-night at 5.15 sharp, in the Music Room of the Union. All who can play any instrument turn out and help us beat Varsity on Friday night. Those at practice admitted free to game.

## FOOTBALL LECTURE.

Lecture in Union at 5.15 to-day.

# SENIORS TO OPPOSE JUNIORS IN DEBATE

This afternoon the Delta Sigma Society is holding a debate on the subject, "Resolved, that for the average student a small college is preferable to a large one." The Seniors are debating against the Juniors. The debaters from the Senior year are Miss Joan Foster and Miss Louisa Fair; and from the Junior year, Miss Elizabeth Massy-Bayly and Miss Eileen Russell. The Seniors will uphold the affirmative. The debate will take place in the Common Room of the R.V.C. at 4 p.m. and will be over in time to permit attending the Extension History lecture. It is hoped that a large number will be present to attend what is sure to prove a most interesting debate.

# MEETING OF R.V.C. UNDERGRAD. SOCIETY

At a meeting of the R.V.C. Undergraduate Society yesterday it was decided that in connection with the European Student Relief Work Dr. Helen Reid should address the members. The president urged those who supported the motion to be present at the meeting when Dr. Reid will outline the dire need of our fellow-students. The date of this meeting will be announced later.

The next point brought before the meeting was the annual gymnastic demonstration. Owing to the fact that Intercollegiate Basketball and Hockey are being played this year in Montreal it was unanimously decided that no demonstration would be held. Miss Phyllis Murray, '24, was elected to the committee which drew up the constitution for the Women's Students' Council.

# FIRST BIG FORMAL DANCE THIS YEAR

On Friday, the ninth of this month, the Union will be the scene of a glorious function, when the Union House Dance will take place within its walls. There are three formal dances during the college year—the Junior Dance, the Union Formal and the Alma Mater—and the House Committee is working overtime in its efforts to make this event an outstanding success. There is no doubt that those who attend this dance will be impressed with the realization that it is something bigger, brighter and better than they are wont to experience.

Tickets will be on sale at the Porter's office at one o'clock to-day.

While out walking last Monday Mary and I crossed a dam on the way; After doing the trick, Mark said, "Dick, Didn't we cross that dam slick!" —Froth.

there will be no obstacle in the way of those wishing to purchase tickets. It is necessary however that the committee know as soon as possible for how many preparations must be made, so that all are asked to attend to this matter at once.

# HABITS OF DRUG FIEND DENOUNCED

(Continued from Page 1.)

The Standard Oil Co., but of course one must consider the profit and the danger relatively.

The lecturer then turned to statistics: The legitimate importations of morphine to Canada had risen from 440 oz. in 1912 to 52,000 oz. in 1917, but they had dropped back to 800 oz. in 1922. Cocaine stood at 35 oz. in 1912, then rose to 12,000 oz. in 1919, and during the last year there were importations of 2,000 oz.; while opium had sunk from 56,630 lbs. in 1900 to 1741 lbs. in 1916, then risen to 34,000 lbs. in 1919 and has now dropped back to 8,000 oz. in 1922. Cocaine, in fact, with these statistics one must note that, although opium is given in pounds, it is only 10 per cent. pure, whereas the other drugs are pure.

These statistics all go to show that if the narcotic habit is on the increase, as there is reason to believe it is, it is due to smuggled goods.

The farmer who used to run out to the mail box for the weekly paper now runs up to the attic to tune in his receiving set.

## MEDS '25 WIN IN SOPHOMORE LEAGUE

Commerce Team Is Beaten by 23-17 Score

In a game of fast, clean basketball, full of brilliant plays and closely contested till the final whistle, Meds. '25 yesterday wrested a well deserved victory from Commerce '24 at Montreal High.

The result was in doubt till almost the end, and Commerce fought stubbornly, being beaten only in the closing minutes of play.

At half time the score was tied, at 10 a. m., and in the next the lead varied till with three minutes to go and the score standing 17-17 Meds. made a determined attack, and scored three baskets thus destroying Commerce's last hopes, and giving them the victory.

For Meds., Dunne and Rapkine played an excellent game, while Stein and Davis starred for Commerce.

The line-ups:—

Med. '25.	Comm. '24.
Forwards.	
Dunne .....	Ross
Rapkine .....	Stein
Centre.	
Robertson .....	Gilpin
Guards.	
Snow .....	Davis
Tanzman .....	Enzer
Spares.	
Rubin .....	Armitage
	Silverman

## ROOTERS WILL BE HEARD ON FRIDAY

Nuts Nutting and Co. Hope to Cheer Team to Victory

Friday the Blue and White supporters again invade Montreal with the hope of adding another win to their record, but the plans of the Rooters' Club are rapidly developing and if the Toronto team hopes to have any rooters that can be heard in the Arena they are optimistic. Every effort is being made by the energetic Nuts Nutting, who is in charge of the Thundering Thousand, to have a capacity crowd of rooters out to yell the Red and White pook chasers on to victory. Not only will the customary rooting be done but the famous rooters' band that appeared last fall on numerous occasions will be out in force. Under the leadership of "Rosie" Rosenbrough they will help the rooters from the east end of the Mount Royal Arena where it is expected there will be much less than standing room before the start of the game.

The band will practise tonight with Lloyd Stevens to lead them. The men who turn up to the practice will be admitted to the game free and have not only the opportunity of making the noise but should draw the best seats in the end of the Arena.

As yet no other announcement has been made to the press as to what the final plans of the rooter club are for the big game but it is certain that they should be out in the largest numbers of the year.

## MISS TORONTO FACED OFF PUCK AT GAME

In a spirited hockey game last night between the Alpha Kappa Kappa and Theta Delta Fraternities, the former team was victorious, the final score being 5-3. An interesting feature of the game was that one of the contestants in the Winter Carnival beauty contest, Miss Toronto, was present, and faced-off the puck. The line-up was as follows:

Alpha Kappa	Theta Delta
Defence	
Peacock .....	Richardson
Harding .....	Mills
Goal	
Brown .....	Knowlton
Centre	
Parlow .....	Mellen
Forwards	
Hill .....	Moore
MacIntosh .....	Cantley
Subs	
	Waite
	Fairman
	Napier

Final score—Alpha Kappa Kappa, 5; Theta Delta, 3.

## SKI JUMPING AND PROFICIENCY TESTS

The Inter-faculty trials for the purpose of selecting men to meet the Eastern Universities in ski jumping and proficiency competitions, will commence to-day at 2.30 p.m. at the ski jump on Cote des Neiges.

The turn-outs for the various tests have been large, and it is hoped that to-morrow will be no exception, as the best possible material is necessary to represent the college.

The proficiency tests will commence at 2.30 p.m. and the ski jumping at 3 o'clock.

Post entries will be received to-day, and everyone is urged to turn out.

On Friday at 5 p.m. ski and snow-shoe dashes will be held at the Stadium, and it is hoped that there will be an even better turn out than the one of a few days ago when over twenty appeared the last time in the novice ski dash.

## EXHIBITION BASKETBALL GAME LOST

Intermediate "A" Team Beaten by N.B.Y.M.C.A.

LARGE SCORE

Teams in Different Sections of Intermediate League

The Intermediate "A" team was defeated last night by the North Branch "Y" team was able to keep the Red on the North End court. Both teams were very aggressive but the "Y" team was able to keep the Red and White forwards well covered at every moment in the game. The defence of the McGill team, however, was working strongly for the major part of the game and although many baskets were scored against the two men this was for the most part due to the small floor, shots going into the net which were sent three-quarters of the length of the court.

The game opened with Philpotts getting the jump. This was for the most part useless, as the forwards were so well checked that it was almost impossible for them to get rid of the ball once they had caught it. The "Y" opened the attack with many long shots which in the first few minutes went wide of the mark, but on getting the rebounds North Branch began to score. When the McGill men got the sphere, they were unable to work around the defence and resorted to taking long shots which were for the most part well away from the ring. The first score came for the home team when a long shot from the side of the floor netted two points. An instant later another tally was made when an uncovered forward rolled an easy shot into the net. The crowd in the gallery were not over enthusiastic and neither team had much support from the side lines. James and Rafalovitch worked a neat bit of team work but the ball missed the mark. A minute later Rafalovitch got the ball and passed to Hedina, who scored on a long shot. Scharie dropped a free try into the net. A second later he repeated the trick and on the next play terminated a neat bit of team work with a basket. James then dribbled through the entire opposition and after a fast bit of travelling netted the ball with a crafty shot from the side of the basket. For the next few minutes both teams showered the baskets in vain attempts to score but the shooting was well away from the mark. The "Y" men hit their stride first, however, and Smith netted a long one which was followed in by a tricky shot by Cullen. Another short period of fast working but no scoring and Cullen of the "Y" broke the play by scoring three baskets in as many minutes. McGill took time out at this point. With no spares to put on the floor the Red and White team was forced to take the rest. Smith scored when the game started again and then Scharie netted two points on free tries. The "Y" scored again and this was followed by a remarkable heave at the basket from the hands of Scharie, who netted the ball from under the arm of the opposition. The ball then took a side into the ring on a free try. Philpotts, the big centre, cut loose and scored on a shot from the side of the net. Time was up with the "Y" 20 and McGill 12.

The second period opened with the game still a possible Red and White win but the heavier men of the "Y" team set out to close the game with as big a margin as possible and not only did they display rather clever individual work but on numerous occasions they worked some combination plays that would do justice to a team in the Senior ranks. Although the game was not too free from fouls they were in every case accidental. In the last period the McGill team had little to say about the play. Scharie was able to get one nice shot into the net and on two occasions James was at the scoring end of some neat passing. Scharie brought down no little comment on the neat way he sent the free tries into the ring but was not by any means up to his usual form. The two big defence men had little trouble close to the net but the home team were able to score at will from the centre of the floor. The "Y" team will in all probability end up at the top of their section of the league, and the game showed a marked difference in the style of play developed by the two teams.

The line-up was as follows:

McGill, 25	Y.M.C.A., 47
Forwards	
Scharie .....	Carr
James .....	Cullen
Centre	
Philpotts .....	Howard
Defence	
Hodina .....	Smith
Rafalovitch .....	Uller
Spares	
	Orr

Baskets: Carr 8, Cullen 6, Smith 5, James 3, Scharie 2, Howard, Philpotts, Hodina. Free tries: Scharie 11, Cullen 7.

## JUNIOR "B" GAINED WIN OVER CRYSTALS

McGill Team Piled Up 20 Points to Opponents' 13

Last night in Molson Hall McGill Junior B. basketball squad met and successfully defeated the Crystal A.A.A. quintette in a game that was remarkably clean, only one foul being called on the Junior B. team and four on Crystals. Play was interesting at all stages, though both sides were rather off on their ball-handling, so that at times play was looser than should be.

Butler opened the scoring with a field basket, shortly followed by one by Norton. These and two fouls were the total points scored in the first half by McGill. H. Campbell, a defence man for the Crystals, proved to be the chief point getter on his team, scoring 3 field shots in the first period. Falconbridge also scored in this period, so that at half-time the score stood 8-6 for Crystals.

The McGill team showed much better team play in the second half, and by getting close under the basket succeeded in rolling in 7 field baskets, while Crystals only succeeded in scoring two. Mr. W. Page handled the game very satisfactorily.

The teams lined up as follows:

Junior B.	Crystals.
Butler (5) .....	Campbell (10)
Norton (6) .....	Bradley (1)
Woodhouse (7) .....	Falconbridge (2)
Grimson .....	Potvin
Grauk (2) .....	Girdwood
Subs.	
Roberts .....	Wilde
Milne	

## ENGINEERS WON FROM MCGILL TEAM

Close Game Marked by Good Team Work of Collegians

In a Montreal City and District Basketball League game last night, the McGill Intermediate "B" team met with defeat at the hands of the Engineers. The final score was 43-36.

A few moments after the referee's whistle, blew, Davis scored the opening basket for the Red and White team. Harrison of the Engineers followed almost immediately with a fine shot from the middle of the floor. The college players showed fine team work, but met an obstinate resistance in their opponents' defence, Myers and Harrison, who between them, were able to stop many ambitious plays on the part of the McGill men.

The first half was marked by fairly even play on the part of the two teams, there being quite a number of fouls. On the foul shots, the Engineers' team proved stronger than McGill, and this fact accounted for a good number of baskets. Whittall, Davis and Booth, for the first five minutes took the lead, and then Spritzer, the McGill forward, seemed to suddenly live up, and subsequently proved to be the start of the game. The first half closed with a score of 21-18 in favor of the Engineers.

The Red and White team were on the defensive during most of the second-half, which was marked by good team work on the part of the Engineers. Whittall and Pierre did most of the scoring for them, and Spritzer showed some fine combination play with Davis. The determined efforts of the McGill players were, however, surpassed by the other team, which was able to keep the score ahead throughout the game, at one time there being a difference of eight points. The half closed with a score of 22-18 in the Engineers' favor, making a total of 43-36. The line-up was as follows:

McGill	Engineers
Forward	
Nelson .....	Davis
Whittall .....	Spritzer
Centre	
Booth .....	Starke
Defence	
Myers .....	Cummings
Harrison .....	Quackenbush
Subs	
Pierre .....	Rapp
Barnfield .....	Bustin
Parsons .....	MacDonald
Referee—Eddy Pugh.	

"The terrible power of the skunk, Is merely historical bunk!" Said one Mr. Slater, But just a week later, He sold his new trousers for junk.

A gent who was anxious to dance As they do in Chicago and France Substituted for prancing, Immovable "dancing" And put all the toughs in a trance.

A Goofus thought practical jokes Make life quite worth while; so he soaks All the beds of his friends With wet paint, odds and ends, They sent his remains to his folks.

Poor Joe met a horrible fate; He died, for the shock was too great. As he stood in the line, A new post-office sign Said, "The mail for to-day isn't late."

—The Daily Palo Alto.

Roses are red and violets blue, My roll is dwindling since I met you.

## RESOLUTION IS DRAFTED BY STUDENTS

To Come Before Students' Society for Approval

MEETING ON MONDAY

Question is Formation of Board to Govern Athletics

The meeting of the Students' Society called for on Monday at five o'clock in the McGill Union is for the purpose of placing before the Society a contemplated change in the manner of the administration of Athletics at McGill University.

The objects of this change are namely to centralize the control and administration of all athletics under an Athletic Governing Board, whose chief administrative officer will be a Graduate Manager, to obtain greater co-operation from the Faculties and Graduates' Society by giving them representation on the Governing Board.

Several informal meetings at which were present various graduates who have been prominent in athletics at McGill, members of the Graduate executive, members of the Advisory Board of the Students' Council, members of the Athletic Association and members of the Students' Council, have been held, and the whole question carefully dealt with. Finally the Students' Council has submitted to the Advisory Board and to the Executive of the Graduates' Society a resolution which has been accepted and strongly recommended.

The resolution is as follows: Resolved: "That the Students' Society of McGill University recommend to the Standing Committee on Physical Education of McGill University the formation of an 'Athletic Governing Board' to control and administer all athletics and athletic monies of McGill University."

Also that the portion of the University fee of each student, namely \$3.00, formerly expended by the Students' Council for athletic purposes be in future transferred to the Athletic Governing Board.

Also "That the composition of the said Athletic Governing Board be as follows:—

The Principal ex-officio.

The Director of the Department of Physical Education.

Three members appointed from the Faculty, one of whom shall be the Bursar.

Three members appointed from the Graduates' Society, one of whom shall be a member of the Stadium Committee.

Three members from the Students' Society, two of whom shall be appointed by the Students' Council and one elected from the Students' Society.

## MEMORIAL TO BE ERECTED IN THE UNION

Design Wanted for Tablet to War Heroes

RETURNED MEN ACT

Opportunity for Architects to Demonstrate Ability

At the last meeting of the McGill Returned Undergraduate Association, held on December 10, it was decided to donate the funds of this association to the purchase of a War Memorial Tablet. The tablet will be placed in a suitable position in the Union as a permanent memorial to those McGill undergraduates who fell in the service of their country during the Great War. A committee composed by Graham Ross, Tidmarsh and Cleland was elected to carry on the work of the association.

Since the last meeting of the association the committee has investigated the matter of a design for the Memorial Tablet and has found that unless designs are volunteered, the funds at its disposal will not be sufficient for a fitting memorial. With this end in view, Professor Traquair of the Department of Architecture has been approached, and has consented to make the design a subject for work in his classes in Architecture.

The committee held a meeting yesterday and decided to call for competitive designs for the McGill Undergraduate War Memorial from the whole student body of McGill.

It is a matter which vitally affects not only the Returned Undergraduate Association, but every undergraduate at McGill that those McGill men who left their studies to go overseas, and who now "lie in Flanders' fields" should be commemorated by as good a memorial as can be erected. The members of the association may be called upon to augment the fund for this worthy purpose. The design, however, is the first requirement, and an opportunity is to be afforded to all students to compete.

Designs must be submitted before February 28, and all students who are interested are requested to watch the "Daily" for an early announcement of the specifications.

First Stude: "Whats the Russian name for a mosquito bite?"

Second Stude: You know. Why doncha-tell me?

First Stude: Iwanawfulitch.

Are you sure hes a college man? Why, yes, father; he has a Yale key.

## UNDERGRADUATES DEBATE ON MUSIC

Modernists Win Debate Over Classicists

Last night witnessed a most interesting meeting of the Music Undergraduates at the Conservatorium. A heated debate on the subject, "Resolved, that modern music holds equal significance with Classical music" showed that many points were to be considered on both sides. The speakers who upheld the affirmative proved the winners although the negative made it a closely contested debate. On the affirmative were the Misses A. DeLagrange and M. McCreary, and on the negative the Misses P. Steeves and G. Griggs. The judges were Dr. Perrin, Dr. Batho and C. H. Fraser, president of the McGill Musical Association. The speakers on the affirmative emphasized the difference between Modern and Ultra-Modern Music. They claimed that Modern Music, that is, music beginning with Wagner, had developed along new lines, and therefore deserved great credit for the innovations.

The speakers on the negative declared that music had reached its height with the Classicists and the fact that the older composers have been imitated and handed down for so long, proves that their work reached a high standard of perfection. Dr. Perrin, dean of the Faculty of Music, gave the decision, previously outlining the difference between Modern and Classical Music.

Piano solos were given to illustrate the affirmative by Miss Audrey Read; violin gavotte by Rameau; vocal solo by Miss Frances James, "Mendelssohn Aria"; piano solo by Miss E. W. Cameron, Sonata Opus 28 by Beethoven.

On the negative: Violin solos by Audrey Read, "Meditation" by Glazounoff; vocal solo by Natalie Jameson, "The Lent Lily," by John Ireland; piano solo by Cameron Taylor, "Moonlight" by Debussy; vocal solo by Marjorie Scane, "Les Cloches," by Debussy; piano solo by Miss Francoise D'Amour, "Jeux d'eau" by Ravel.

The Musical Undergraduate Society wish to convey their thanks to the president of the Students' Council, the Union House Committee and the Medical Undergraduate Society for their kind assistance.

"Is my father in there?"

"Get away from that swinging door, little girl, you may get hurt!"

"Well, is my father in there?"

"Well, what if he is?"

"Mother says she can't get the home-brew off the stove."

"Aw, what's the difference?"

"Well, brother Robbie's just fell in!"

Gwinne.—O why do they have those queer little fences about the trees in the park?

Skinne.—Well you see, they might leave in the spring.

FOUND.  
There has been a bunch of keys lying the Daily Office for ten days. The owner is requested to call for them as soon as possible as the office is overcrowded at present.

LOST.

# The National Trade-mark

OLD silversmiths, in order to help people tell pure silver from cheaper imitations, marked the real thing "sterling."

In a like manner, manufacturers, who stand back of their wares, identify them with trade-marks that are your guarantee of quality. By advertising these trade-marks, they focus on their products the searchlight of attention.

Only good goods, fairly priced, can flourish in this light of publicity. For no merchandise and no business can thrive under the weight of public condemnation.

That is why a manufacturer, or a merchant, places the whole reputation of his business at stake every time he advertises. His goods must be as advertised.

So, in looking through this paper remember this: the man who spends his money to invite your consideration of his wares, backs up his belief in his goods and leaves the final decision to you.

It pays you to read the advertisements. It pays you to buy advertised products.

Advertising is your protection

# QUIPS

## MORE REALTY THAN RHYME

The "message" we hear from the big business man  
In a tone that inflicts me with pain:  
"All you students should study as much as you can,  
"And never spend hours in vain."  
I infer from this truth that the studious youth  
Is the one who will always succeed;  
And relaxing my mind will undoubtedly find  
All my talents will turn into seed.  
And my elders are always so anxious to tell  
Of the dangers that face college life,  
That I gather experience has taught them quite well,  
That the key is assiduous strife.  
Now perhaps I'm a food not observing this rule,  
But to be an exception I choose:  
And to study all day, having nothing to say,  
Is a thing I most sternly refuse.  
You can readily see my intentions are such  
That gold medals I hold in contempt;  
And the wise ones have told me I'll never do much  
If I don't even make an attempt.  
But I take them to task, and I solemnly ask  
If they never have yet seen the day,  
When at college as boys, they remember the joys  
Of the hours they wasted away?

is the "small man" of Med. '24 who spent his Christmas at Dartmouth; and was the attraction a "Good one."

was the spare for the Intermediate Basketball game last Saturday who obviously was following his mother's instructions for cold weather?

they so seldom followed by him that he got mixed up about the location?

for Evans sake bought out the Laura shop?

is the Medical Seniorette who fell into the arms of a strange man on the corner of Sherbrooke St. and Victoria Ave. last Sunday afternoon?

why did she feel that way?

were the youth and maiden doing in the hall of the Biological Building on Tuesday?

were they escorted to the lecture room?

he fail to go down for his coat, believing that "homespun" Walshes well?

## RECENT ADDITIONS TO MCGILL LIBRARY

### List of Volumes Received in Week Ending Jan. 27

The number of books listed below, which were added to the University Library during one week, shows to what extent the students' needs are provided for in this, one of the greatest of McGill's departments. The books are arranged in alphabetical order of the author's names.

Aretino, Pietro—*Loo Ragonamenti*.  
Bolton, A. T.—*The architecture of Robert and James Adam*.  
Bigland, John—*A topographical and historical description of York*.  
Bosworth, T. O.—*Geology of the tertiary and quaternary periods in Peru*.  
Caunden, William—*Britain*.  
Clark, W. A., Jr. Coll.—*The library of W. A. Clark, Jr.*  
Chautau, G. A. de—*Poesies de Chautau et du Marquis de la Fare*.  
Cohn-Wiener, Ernst—*Potsdam mit den königlichen Schlössern und Gärten*.  
Crabtree, John—*A concise history of Halifax in the county of York*.  
Dionne, N. E.—*Les voyages*.  
Dobell, S. T.—*England in time of war*.  
Ehardt, Bodo—*Deutsche Burgen, 2 vols.*  
The exposit, 37 vols.  
Fauchet, Paul and Visser Charles—*La guerre de 1914*.  
Finat, Jean—*L'Atelier de gens heureux*.  
Gouge, W. J. M.—*A short history of paper money*.  
Helps for students of History. Series, 37 vols.  
Hopkins, A. E. Rivers—*The Sherraton period*.  
Howe, E. W.—*Ventures in common sense*.  
Jacks, L. P.—*Among idle makers*.  
Jefferson, C. E.—*The Minister as prophet*.

is the rather prominent member of the Council who spent such an enjoyable, interesting, and to quote "altogether exhilarating" afternoon last Saturday?

he not have given the "whispering half back" a chance?

can be found the person who doubts that the atmosphere of the Union dances are all that it is advertised to be after the happening at that of last Friday, which failed of publication only due to the lack of a "personal column" in this journal, but has received wide advertisement and frank, amazed reception about the Campus since its occurrence?

is the Commerce Senior who was escorting one of the aspirants to the Beauty Crown about the campus at a late hour last night?

did she enjoy the game? And why did he not sport a "home-town" product?

is the Third Year Med. who thinks fresh air is good for his scalp?

would like to know is "tin" necessary for canning?

is the past Medical representative to the Council who says "Sick"? . . . Why, that's nothing.

how does he get that way?

is the Arts Freshman, of Beaver fame, and of whom he have "hird" before, who was seen doing the postman act during English lecture last Tuesday, and

he recovered from his notoriety of former quips?

was the "Daily" man who ventured to walk up the R.V.C. steps carrying a club-bag and a suitcase one evening this week?

was he so anxious to get someone else to carry the suitcase?

did the suitcase spend the evening?

is the "white pearl" who "spelt a little while" last night instead of attending the Glee Club practice?

do summer Roses fade?

is the Daily man, also connected with the Law Library, who devotes his spare time to writing verses for the "Strollers" competition?

does he hope to carry off a prize?

Jefferson, C. E.—*The Minister as a shepherd*.  
Justinianus, I. P. A.—*Digest*, 41, 1 and 2.  
La Sake, Anotine de—*Les quinze joyes de mariage*.  
Lavington, Frederick—*The trade cycle*.  
Mariell, W. R.—*Russia and Poland*.  
Mason, O. T.—*The ulu*.  
Maus, L. M.—*An army officer on leave in Japan*.  
Messel, Alfred—*Messel*, 1912.  
National Bank of Commerce, N.Y., a great American bank.  
Prevost, Marcel—*Les Don Juanes*.  
Prevost, d'Erules, A. F.—*Manon Lescaut*.  
Porter, E. G.—*The Cabot quadri centenary*.  
Rankine, W. J. M.—*Songs and fables*.  
Raschdorf, J. C. and others—*Palast, Architektur von Ober, Italien und Toscana*. 2 vols.  
Renault, Raoul, ed.—*French-Canadian songs*.  
Richepin, Jean—*Contes sans morale*.  
Russell, E. J.—*Manuring for higher crop production*.  
Schulz, H. W.—*Denkmäler der Kunst des Mittelalters*, 4 vols.  
Scott, J. B. Comp.—*La politica exterior de las Estados Unidos*.  
Sims, N. L., ed.—*The rural community*.  
Strack, J. H., ed.—*Ziegelbauwerke des Mittelalters*.  
Stubel, Alphons and Uhle, M.—*Die dices*.  
Taylor, H. O.—*Greek biology and medicine*.  
The Times and commercial adviser, 3 vols.  
Thomas, J. H.—*When labour rules*.  
Thomas, W. J. and Znaniecki, Florian—*The Polish peasant in Europe and America*. 5 vols.  
Trigo, Felipe—*Del frical fuego*.  
Trigo, Felipe—*La altesina*.  
Vallee Oscar de—*Le duc d'Orleans et chancelier Daguesseau*.  
Weigall, A. E. P. B.—*A guide to the antiquities of Upper Egypt*.  
Weiberg, Hans.—*Die internationale Beschrankung der Raubtungen*.  
Wyatt, C. H.—*The English Citizen*.

## CAUCUS GOSSIP

### THE GOVERNMENT

The Constitutionalist Party will be in power for the first time this evening when the Parliament opens. That it will not be the last session at which they will command a majority they are as certain as they are of the fact that the Opposition will be humbled to an even greater degree than that of the previous meeting. To the casual observer there might seem to have been a lull in the activities of the Party managers; such has been true only insofar as appearances are concerned. Developments have been taking place in the ranks that have not been apparent to those who were not in the confidence of the Premier. Chief among these, it is now common knowledge, has been that of the appointment of the Hon. Jacques Senecal to the Senate, a post long desired by the holder and one that was sought with unremitting vigor upon his part. Words, though, after all, are futile things; tonight will be seen the results of the industry of the Constitutionalist.

### THE OPPOSITION REPLY

Surely the quality of mercy is one of which every man should possess to some degree so that he may be distinguished from the animal. Governments especially should be humane, considerate and merciful. Yet the Government of McGill states: "It was decided to show no mercy." What an inhuman policy! Nor will this so-called Constitutional regime grant recognition to that one greatest principle which underlies British justice—to every man a fair trial. Rather it states: "Since he (the victim) cannot possibly substantiate any of his charges," the Government will deal with him mercilessly. That is, this law-abiding administration has already prejudged the man's case—has decided upon his condemnation before he is brought to trial! Mill declared that lawyers were unproductive. In this case they will prove destructive—destructive of all the ideals dearest to Canadian hearts.

It is alarming, almost terrifying, to note that a Government which so expresses itself has not yet given the country any assurance as to the sanity of its policy. It has said nothing! With reason, we fear the worst. We fear tyranny and abusive government. The Opposition will strive its utmost to check the suicidal measures of a dangerous administration.

Opposition Whips  
Medicine—R. L. Hamilton.  
Science—R. W. Ambridge.  
Arts—Amaron, Spectator, C. Teakle.  
McPhail, H. Teakle.  
Theology—Clark, Lloyd.

### CONSERVATIVE PARTY

Yesterday afternoon at a representative gathering of electors the Conservative Party was formally organized. A. E. Tremain was unanimously elected leader to direct the destinies of the party in the House tonight. The platform of the party is a strong one and should benefit the country as a whole, especially the students of McGill.

The policy of the present Government found scathing condemnation at the meeting and several features came under fire; notably the waste and extravagance of the methods at present being pursued. The taxpayers are groaning under insufferable burdens, the members of the House have received no indemnity, and at the same time a state of unprecedented corruption is said to exist in all Government Departments.

The platform which was drawn up will undoubtedly appeal to every right-thinking elector in the Dominion, and is a relief to all after the meaningless smoke-screens of politicians which have flooded the press to date. That the Government has not the slightest intention of carrying out pledges to the electorate is further evidenced by the published intention of holding a lengthy and needless trial of a certain insignificant individual before the bar of the House, as an excuse for holding up legislation which the country demands. Instead of satisfying the electorate the Government intends to waste the time of the House and the funds of the people by means of a mockery of justice.

The Conservative Party advocates: Increased Immigration of desirable settlers. Legislation is proposed whereby intending immigrants will receive 50 per cent of their passage-money to Canada, plus 25 per cent of their railway fare to any point inland. A policy of "hands-off" the railways until the present management has an opportunity of proving the efficiency of the present system.

The party feels that the country is in no position to carry through the St. Lawrence Waterways Development, but that when finances permit Canada should do this alone.

Steps must be taken to meet the situation created by the U.S. Fordney tariff, by a system of compensation through subsidies, notably to cattle raising.

A strong stand is taken on the question of those raw materials in which Canada possesses almost a monopoly. These materials should be processed in the Dominion wherever possible. The present method whereby the U.S. derives the profit of manufacturing materials which originate in Canada is to be deplored.

Other aims of the party looking to the welfare and comfort of the elector

torate and in particular to that most important class, the students, are the erection of a free beer fountain in the university grounds and the construction of a high board fence around the rink in the hollow.

The organization of a Federal News Bureau and the broadcasting of general news, weather and crop reports, by means of radio, is a notable feature in the Conservative platform.

Tonight at the opening of Parliament the party colors will be distributed and worn by the respectable section of the house which will occupy the cross benches.

Inebriate (standing over manhole in the street): Wonder when they're going to turn the heat on here?

A girl on a warm southern side is hardly much bothered with style.

The knack of it's in her  
Then, dressing for dinner  
Involves just a change in her smile.  
—Harvard Lampoon.

## SOPHS. WIN HOCKEY FROM THE FRESHETTES

The second of the inter-class hockey games was played on Wednesday afternoon, between the Sophomores and the Freshettes. Although the play was not centred about either goal, the Sophomores showed rather better form than the less experienced Freshettes.

Soon after the first period started, E. Longworth, of Second Year, scored a goal on a pass. The puck was then carried back and forth, E. Hutchinson and F. Stocking played good hockey, until a scramble around the Second Year goal resulted in a goal for first year. After a few more minutes play, the period ended with the score 1-1.

At the opening of the second period E. Hutchinson secured the puck, and shooting from outside the defence, scored a goal. Almost immediately afterwards E. Hutchinson again scored a goal in the same way. F. Stocking secured

the puck, and skating down the ice after some pretty stick-handling passed the defence and scored. E. Hutchinson and D. Hutchinson of Second Year, made some good rushes, one of which resulted in a goal. The period ended with the score 4-2 for the Sophomores.

Throughout the third period both teams showed more speed. F. Stocking's playing being marked by clever back-checking and good long shots. The play, however, centred for the most part and F. Stocking tried hard to score, but were unable to get beyond the Sophomore defence. D. Hutchinson skating down, passed the puck to M. Burland, who shot and scored. The game closed with the score 5-2 in favor of the Sophomores.

The line-up was as follows:—  
R.V.C. '26.

Centre, E. Stocking  
Right Wing, M. Burland  
Left Wing, E. Longworth  
Goal, E. Hutchinson

Defence  
D. Hutchinson  
R. Turley  
Goal, E. Petrie

### FEBRUARY 1, 1913.

Varsity wins close contest on sloppy ice in Senior hockey fixture. McGill, with five minutes to play, netted the first goal, but lost out 2-1 in the most exciting finish seen here in many a day.

Toronto basketballers win close game from McGill 25-20, thus gaining the championship of the Intercollegiate League.

### FEBRUARY 1, 1916.

The McGill Hospital in France has been reopened and is receiving patients again from the front.

McGill ties Shamrocks 2-2 in a City League hockey fixture. Shamrocks played better hockey in the first period and took lead, but McGill came back in the second and by scoring two goals tied the game.
